ESEA
Bulletin

ESEA Title II | Bulletin No. 2 | February 10, 1966

HOW SCHOOL LIBRARY BOOKS WILL BE PROVIDED . . .

On or about March 1, all schools in Montana, public and private, will receive forms for requesting library books under Title II of the Elementary and Secondary Education Act of 1965 (ESEA).

The form will resemble a catalog; it will list some 12,000 titles of books for grades K-12.

Each district and each private school representative may choose books from the list provided, mark the form accordingly, and return it to State Superintendent Harriet Miller.

The Department of Public Instruction will place all book orders through one nationally-recognized processing firm, selected in accordance with the competitive bidding requirements of the State of Montana.

The processing firm will send local school officials a confirmation notice, listing those books which will be supplied, and will obtain the books, prepare the catalog cards, place identification markings on the books, and ship them directly to the schools, completely processed and ready for use.

The books will be the property of the State of Montana, on indefinite loan to public schools and on renewable annual loan to representatives of private school pupils. In each school the books will be available for use on the same basis as library books purchased from local funds.

INFORMATION FOR SCHOOL OFFICIALS AND LIBRARIANS . . .

In February a series of regional meetings will be held throughout the State to acquaint school officials and librarians with the ESEA Title II program. Specific times and places of the meetings will be announced soon.

TENTATIVE CALENDAR FOR ESEA TITLE II . . .

February 12, 19	Regional meetings conducted by Department of Public Instruction
March 4	Schools to receive request forms (including book selection lists)
April 1	Deadline for requests to be received by State Superintendent
May 31	Schools to receive confirmation lists of books to be supplied
June 15	Schools to be notified of any reallocation of ESEA Title II funds for the current fiscal year
July 1	Deadline for receipt of requests based on reallocation, if any

DIRECTORY OVERVIEW

This directory provides information about staff employed in public health departments, schools, Indian health programs and family planning programs throughout Montana. Head Start health coordinators are also included along with information about staff within the Department of Health and Environmental Sciences. Some agencies are missing; some were inadvertently overlooked; others did not return the data forms provided.

It is our expectation that the directory will facilitate communication among health care providers in Montana and referrals for Montana residents from out-of-state facilities.

The directory will be updated periodically, with supplemental information provided on an occasional basis. Additions, corrections and deletions should be sent to the Family/Maternal and Child Health Bureau at the address below.

A data sheet has been included at the end of the directory. This form should be copied and completed for all new nursing staff joining your agency and submitted to the address below.

Family/Maternal and Child Health Bureau, Montana Department of Health and Environmental Sciences, Health Services Division, Cogswell Building, Helena, Montana 59620 (phone: 444-4740 FAX: 444-2606).

Montana statutes require that this directory not be used as a mailing list and no permission is given for such use. Use of this list for unsolicited mass mailings, house calls or distribution is prohibited and may constitute a misdemeanor punishable by fine of up to $500 and imprisonment of up to 6 months.

This list may be reproduced and copied by public health agencies for use in their day-to-day work. It may not be distributed or sold to any other person or organization.
